Sirius Online and the RtI Framework

Students are different and have unique needs. A practical approach to organizing the implementation of *Sirius Online* is to use the Response to Intervention (RtI) framework with Tier 1, 2, and 3 pathways.

- TIER 1** All students get rigorous authentic STAAR 2.0 practice.
- TIER 2** Targeted students get essential TEKS instruction.
- TIER 3** Below-level students get foundational reading skills.

Sirius Online Provides Consistent Instructional Routines

Research shows strong support for the RtI framework in improving learning for all students. With *Sirius Online*, you can create **consistent instructional routines** that support both Tier 1 and 2 students.

The Need for High Quality Tier 1 Instruction

All students benefit from instruction that is aligned with exactly what students need to *know* and *do* on the STAAR tests. Students should get regular exposure through the year to learn the STAAR-tested thinking. This includes developing fluency with online testing tools and features.

Aligning Tier 2 Support with Classroom Instruction

Tier 2 and Accelerated Instruction students often receive instruction that is unrelated to classroom instruction. *Sirius Online* empowers class teachers to guide group and individual interventions for struggling Tier 2 students. With *Sirius Online*, targeted students get explicit and systematic instruction in the essential TEKS.

English I and II EOC Retesters

English I and II EOC retesters should receive supplemental Accelerated Instruction to help them pass the STAAR tests. With *Sirius*, students can get print, digital, and blended learning resources that transfer to STAAR success. *Sirius* matches STAAR 2.0 in all ways: content (reading and writing selections), context (online and new question types), and complexity (rigor).

Sirius Online RLA Complements Rtl

TIER 1 STAAR 2.0 Practice to Show Progress for ALL Students

The new Texas accountability system emphasizes progress for all students, and rewards moving students to the Meets and Masters Grade Level.

So throughout the year, all students should receive regular authentic STAAR 2.0 practice in analyzing reading and writing selections to find the best evidence-based answer. This helps students transfer what they learn in class to the content and format of the online STAAR test.

Scaffolded Practice Supports: Empowerment with Choice

Answering STAAR questions requires reading with the specific purpose to answer STAAR questions. *Sirius Online* Practice assignments empower students to become better STAAR thinkers by giving them scaffolded support in how they navigate each selection and item set.

Choices help students feel more in control of their learning and encourages them to take greater ownership. Below are the scaffolded supports that students can choose

- Show Hint** Gives a helpful tip before answering a question.
- Sample Answer** Gives a sample answer or sample student response.
- Submit Answer** Gives immediate feedback on the answer selected.
- Try Again** Gives another try after students receive feedback.
- Show Correct Answer** Gives the correct answer and its feedback.

A Practice Test Builds Confidence

In the weeks before the STAAR test, use Practice Test as a full-length “dress rehearsal.” This builds test-taking confidence and provides high quality data.

TIER 2 TEKS Instruction for Targeted On-Level Support

Sirius Online supports targeted TEKS-based instruction with on-level skills instruction teachers can use to support struggling and Accelerated Instruction students.

In *Sirius Online* Reports, teachers can make individual or group assignments by TEKS to target specific needs.

TIER 3 Remediation for Intensive Below-Level Support

Sirius Online Tier 3 implementations focus on scaffolded instruction in the previous grade level reading skills (Build Reading Skills) needed for on-level instruction.

The previous grade-level courses are available for free, and their skills can help students with prerequisites.
